Himel, Reliable made affordable

www.himel.com

Modern buildings needs are diverse and evolving. Himel Floor Socket are solving the needs of the buildings of today and tomorrow thanks to a contemporary designed socket, popping out from the floor, providing a convenient and safe power outlet.

The stylish and robust floor socket outlets from Himel are used anywhere, from shopping centers, hotels, museums, airports, railway stations, condominiums, commercial buildings, office buildings etc.

They are suitable for wood, carpet, granite and marble countertops.

Thanks to a wide range of outlets, Himel Floor Socket can meet all power needs of a new building.

Reliable and Practical

Safety

No cables appearing on the floor prevent electrical short circuit and reduces tripping hazards. The sockets include a shutter to prevent children from electrical shock.

Practicality

Perfect for residential and commercial buildings and for diverse flooring and countertop application. Himel wide range of outlets meet all modern building needs.

Reliability

The Brass Alloy and AL-Alloy are water and corrosion resistant. This ensures a long lifetime of the product and a reliable performance.

Neat Look

Himel Floor Sockets are available in two stylish colors: Gold and Silver. They are a contemporary and cost effective wire management system, providing a neat look to any modern building.
